

SENATOR JERRY HILL

Invites You to a

SENATE SUBCOMMITTEE HEARING *on*

SAFETY & CALIFORNIA'S ELECTRIC GRID

Wednesday, November 18, 2015 ~ 10 a.m. to Noon

California Public Utilities Commission
Auditorium

505 Van Ness Avenue, San Francisco

PURPOSE: This hearing will examine what progress electric utilities and state agencies have made toward fireproofing California's electric grid. What has been done to prevent a recurrence of the devastating 2007 wildfires that involved power lines? What is being done as the persistent drought makes California forests even more vulnerable? Are we safer now? Hear from fire safety experts, representatives for utilities and representatives of the California Public Utilities Commission.

Senator Hill is holding the hearing as chair of the Senate Energy, Utilities and Communications Committee's Subcommittee on Gas, Electric and Transportation Safety.

This event is free and open to the public, but RSVPs are encouraged.

To RSVP, please visit <http://senate.ca.gov/2958/gridsafety> or call Senator Hill's Capitol office (916) 651-4013 or his district office at (650) 212-3313.
